Only Rain Down the Storm Drain!!

WHAT CAN I DO?

Install and maintain your BMPs.

Slope Stabilization with Matting Blankets (Mb)

Silt Fence (SdI-C)
Type "C" or approved alternative

Construction Exit (Co)

Storm Drain Outlet Protection (St)

Temporary Sediment Ponds (Sd3) &
Detention Ponds

Concrete Washout Area

Useful Tips:

- Do NOT place portable toilets on sidewalks, in streets, or near storm drains.
- NEVER dump anything down the storm drain. Remember "Only Rain Down the Storm Drain!"
- Only washout in an approved concrete washout area.
- Clean up any off-site tracking.
- Prevent sediment from entering "state waters" and from leaving your site by installing and maintaining your BMPs.
- Refer to "Concrete Washout The Guide" and "How to Pass a Site Prep Inspection the 1st Time and Avoid Re-Inspection Fees". Both guides can be found at City Hall on the second floor, building department.
