

Addendum 1

Project: Request for Qualifications for Residential Inspectors for Rehabilitation on Residential Property Under the Chalk Level Area Housing Rehabilitation Program

RFQ Date Released: September 19, 2025

Addendum Released: October 21, 2025

Clarification on Certifications

- This program addresses life safety and code compliance concerns in residential structures and does not seek to primarily address cosmetic problems.
 - Preference will be given to respondents who are certified in code compliance inspection.
 - If a respondent does not carry a code compliance certification they will need to exhibit sufficient expertise in the field.
